

Understanding Prostate Cancer: From Risk Factors to Treatment Options

Tuesday, September 17, 2024

7:00 pm to 8:00 pm

Virtual

Michael Feuerstein, MD, MPH
Urologic Oncology

Gregory A. Joice, MD
Reconstructive Urology

Join our panel of experts who will explain what you need to know about prostate cancer; learn how to reduce your risk for the disease; and find out how to optimize your wellness following prostate cancer treatment.

Moderator: William Higgins, MD, MBA, Vice President, Regional Executive Medical Director NewYork-Presbyterian Medical Group, Hudson Valley and Westchester, and Chief Medical Officer at NewYork-Presbyterian Hudson Valley Hospital.

Topics Covered:

- Who's at Risk and Types of Screenings
- What Happens After a Prostate Cancer Diagnosis
- Managing the Side Effects of Treatment
- Overcoming Fear of Recurrence
- Unique Challenges for Men of Color

NewYork-Presbyterian is offering this free virtual program in collaboration with the African American Men of Westchester, and the Port Chester/Rye and Peekskill branches of the NAACP. The program will be available in both English and Spanish.

Pre-registration is required. Click [here](#) or scan the QR Code below to register.
